What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

How many MWh can a container hold?

Range of MWh: we offer 20,30 and 40-foot container sizes to provide an energy capacity range of 1.0 - 2.9 MWh per container to meet all levels of energy storage demands. Optimized price performance for every usage scenario: customized design to offer both competitive up-front cost and lowest cost-of-ownership.

What are new and used storage containers?

New and used storage shipping containers are a great option for anyone who needs plenty of storage room. These containers can be delivered to your home or business, providing you with more space to store things that may not fit in your indoor premises.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.
